Price Increase Notification

Dear Valued Customer,

The North America Foodservice industry continues to experience challenges relating to the Pandemic. Like many other industries worldwide, foodservice supply chain is unable to keep up with growing demand due to constraints in everything from raw materials to people.

As a result of higher domestic prices and additional costs associated with sourcing, we are implementing a **10% price increase on all PET products** as well as a **5% price increase on all PP products** we currently supply to you **effective Feb 1, 2022**.

This price increase will be **effective with all orders placed on or after February 1, 2022 and orders shipped on or after February 1, 2022**.

Please note:

- We will not accommodate any advance purchases and we reserve the right to restrict orders to normal order patterns.
- All POD's, contracts and bid prices will increase when applicable per their Agreements.
- In addition to the above increases, please note that all current Open Orders will be shipped at current prices including previous increases regardless of when received
- Any items unavailable when fulfilling the order will not carry over pre-increase prices past the increase effective date
- We are closely monitoring increases on other materials as well as freight that may require us to provide temporary surcharges

We are in the process of updating your Price List for these products you currently purchase and will send to you prior to Feb 1 implementation date.

We value your business and thank you for your continued support of Amhil North America.

If you have any questions regarding this price increase, please contact your Amhil sales representative.

Sincerely,

A handwritten signature in blue ink, appearing to read "Alison White".
