

Berry Global, Inc.
101 Oakley Street
Evansville, IN 47710

Mar 1, 2021

To Our Valued Customers:

Continued strong global and domestic demand for plastic products has created increasingly tight supply positions for all major resin producers. This situation coupled with manufacturing and transportation disruptions has forced Berry Global's raw material suppliers to implement the previously announced February 1st, 2021 polyethylene price increase. This is the third consecutive month with raw material increases beginning in December, 2020.

Because of the February 1st resin increase, Berry Global will implement a price increase of 10% (product line specific) on all Can Liners, Food Bags, Table Covers, Aprons, Bibs, Poly Boots and Poly Gloves. This increase will take effect with all orders placed on or after April 5th, 2021. Berry Global reserves the right to limit the size of orders to historical quantities to better serve the anticipated demand of our customers. All orders must call for immediate delivery.

Berry Global will work closely with you to manage the impact of these price adjustments and keep you abreast of changing market conditions. Your local sales professional is always available to answer any questions you may have.

Thank you for your business and continued support.

Sincerely,

A handwritten signature in black ink, appearing to read "Trey Spurlock".
