June 25, 2021

To Our Valued Customers:

Continued force majeure and allocation procedures in the resin market compounded with strengthening demand and inflationary costs have forced Berry Global's raw material suppliers to implement their June 1st, 2021 price increase. This is the seventh consecutive month with raw material increases beginning in December, 2020.

Because of the June 1st resin increase Berry Global will implement a price increase of 5% - 7% (product line specific) on all Can Liners, Food Bags, Table Covers, Aprons, Bibs, Poly Boots and Poly Gloves products. This increase will take effect with all orders placed on or after July 19, 2021. Berry Global reserves the right to limit the size of orders to historical quantities to better serve the anticipated demand of our customers. All orders must call for immediate delivery.

Berry Global will work closely with you to manage the impact of these price adjustments and keep you abreast of changing market conditions. Your local sales professional is always available to answer any questions you may have.

Thank you for your business and continued support.

Sincerely,
