

November 23, 2021

To Our Valued Customers,

PVC resin suppliers are implementing another increase for November. Resin remains allocated while other raw materials used to make PVC film remain in tight supply, on Force Majeure or allocation and also rising in cost. Most recently, our box suppliers have run into issues leading to extended lead times and significant increases in prices for these commodities.

As a result of the aforementioned conditions, Berry Global will implement a price increase of 10% on PVC meat, poultry, produce overwrap films (including laundry film), mushroom film, cutter boxes, refill rolls, perforated rolls and Milers. This increase will take effect with all orders placed on or after December 20th, 2021. Berry Global reserves the right to limit the size of orders to better serve the anticipated demand of our customers. All orders must call for immediate delivery.

Your local sales professional is always available to answer any questions you may have.

Thank you for your business and continued support through these very difficult times.

Sincerely,

Roland Castellanos
Vice President– PVC Overwrap Films
