August 13th 2021

Dear Valued Partners,

Due to the continued increase of costs related to raw materials, manufacturing operations, and transportation, Direct Pack Inc. is announcing a price increase effective Wednesday September 15th, 2021. This is in addition to the price increase announced for August 1st 2021.

Recognizing the challenges posed by multiple increases to your business, we continue to do all we can to minimize the impact of cost increases and are committed to remaining a highly competitive resource. However, current operating conditions require the announced increases to ensure we can provide the continuity of service and delivery performance you expect from our team.

This price increase will apply as follows:

BOTTLEBOX® 9%
rPET / PET 9%
Polypropylene 9%

PODs and contract business will increase per the terms of the agreements.

Orders placed for immediate shipment on or before September 14th, will be invoiced at the current pricing. Please note we will not be able to accommodate orders larger than current forecasts and historical patterns.

Please contact your Direct Pack, Inc. sales representative if you have any questions.

Thank you for your continued partnership.

Sincerely,

A handwritten signature in black ink, appearing to read "Patrick Nunan".

Patrick Nunan
Executive Vice President Business Development/CRO
