May 29, 2026

Dear Valued Dart Customer,

As part of a regular pricing review, Dart is implementing targeted invoice price adjustments on select products **effective July 1, 2026**. Prices will vary by item and may increase, decrease, or remain unchanged.

For customers in states with Extended Producer Responsibility (EPR) requirements, new pricing will reflect updated EPR fees.

**Please refer to the attached price list for all affected products.**

Price adjustments apply to **all orders placed on or after July 1, 2026**. Orders placed before July 1, 2026, for immediate shipment and within normal purchasing levels will be invoiced at pre-adjustment prices. Orders exceeding normal purchasing levels or placed on or after July 1 will reflect updated pricing. Contracted pricing is not affected by this update but may change at the next renewal.

Please contact your Dart Sales Representative if you have questions or are interested in a quote for new business.

Thank you for adjusting your records and for your continued support.
