October 8, 2026

Dear Valued Dart Customer,

Due to continued increases in raw material, transportation, and other manufacturing costs, we are implementing an **8% price increase on affected unprinted and printed foodservice-packaged paper products effective November 15, 2026.** Select custom print products may also adjust as part of this increase at rates other than 8%.

Product Category	Percentage Increase
All products made of paper	8%
Select Custom Printed Products	Varies

Please refer to the attached price list for all affected products.

The increase applies to all orders placed on or after November 15, 2026. Pre-increase pricing applies only to orders placed before November 15, 2026, for immediate shipment, within normal purchasing levels, and with product available at the time of shipment. All other orders will reflect updated pricing. Contract pricing guaranteed for a specified period is not affected by this increase but may change at renewal.

Please contact your Dart Sales Representative if you have questions or are interested in a quote for new business.

Thank you for adjusting your records and for your continued support.
