RE: Announcement

Dear Valued Eatery Essentials' Customer,

As a result of sharp increases in crude oil, fuel, freight, as well as disruptions in resin manufacturing due to weather with reduced resin availability in the market, PET and PP prices have taken significant increases. Paperboard and PE, which is used in making our paper products, have seen sharp increases and limited supplies. Eatery Essentials, Inc. is announcing a 9% price increase on all products sold.

This price increase will take effect on all orders shipped on or after May 1, 2021 from all shipping points. All resin contracted business will increase per the terms of the contracts at the escalator/de-escalator calculated rate. All contracted POD's will increase effective May 1, 2021 or contracted review period. Eatery Essentials will not accommodate any advance buys and will reserve the right to restrict any orders which exceed normal ordering patterns or previously submitted forecasts and/or stocking agreements.

Eatery Essentials, Inc. will be forwarding updated price lists in the next 5 business days. The receipt of the new pricing will not delay the implementation dates of this increase. All PO's with ship dates on or after the above mentioned dates will need to be updated to show the new pricing. Orders will not be shipped if correct pricing is not on the PO.

Thank you for your business and we look forward to growing with you in the days ahead.

Kindest Regards,

Charles W. Pickering
Vice President of Sales and Marketing
Eatery Essentials, Inc.
