

November 16th, 2020

ENJAY DISTRIBUTION PARTNERS

Over the past 60 days, North American Board and Linerboard Mills have announced price increases on raw materials. These increases together with escalating operating costs have a major impact on the products we manufacture.

With these facts in mind, we are forced to implement a price increase – effective on ALL shipments starting January 4, 2021. Please ensure ALL orders are placed well in advance of the Holiday Season as our office will be closed for our normal Holiday Shutdown, starting December 23rd, 2020 thru until January 4th, 2021.

The increase will be 6% on ALL items – with the exception of ONEWAY Disposable Piping bags.

As we close out our 38th year in business, we understand that these are difficult times for many businesses in this COVID environment. We appreciate your support and please understand, that your business is very important to us. We will continue to set higher product standards as we meet customers changing needs, increased service levels, new product development, enhanced product quality and increasing customers sales.

Please be safe and let's get through this together. "Stay Calm and Eat Cake".

Regards,

Gary Coulson
