RE: Price Increase Announcement

Dear Valued Customer,

At Fineline Settings, we remain committed to providing high-quality products, competitive pricing, and dependable service.

Our industry continues to face significant increases in raw material and transportation costs, particularly inbound ocean freight, which has more than tripled. We have worked diligently to absorb these expenses and delay a price increase for as long as possible - proudly holding our pricing steady since May 2025. Unfortunately, we can no longer maintain our current pricing.

Accordingly, Fineline Settings will implement a 10% price increase as follows:

Warehouse Orders: All orders shipped on or after December 1, 2026

Direct Container Orders: All new orders placed on or after October 27th, 2026 (effective immediately).

To ensure equitable product availability, Fineline reserves the right to limit orders exceeding normal purchasing patterns or established forecasts and to restrict advance purchases at current pricing. All orders remain subject to product availability.

Updated pricing will be communicated by your Fineline sales representative.

We sincerely appreciate your understanding, continued support, and valued partnership. We remain committed to delivering the quality and reliable service you expect from Fineline.

Sincerely,

Rob Kirby
Vice President of Sales
