

08/09/2021

Dear Valued Customers,

We at IMEX Vision sincerely appreciate all our customers and value your importance to our business.

As you may know there is a US labor shortage. It's challenging to find employees; we have found the need to offer higher wages to continue our operations. In addition to this, we are still seeing continued rising of transportation costs (domestic & import). We have attempted to minimize impacts to our customers by absorbing many of these expenses and still provide our high-quality products and service.

We are now unable to honor our current prices and must announce an 8% price increase effective 8/20/2021. We will honor current pricing for all orders placed through 8/20 that fall within regular usage parameters.

IMEX looks forward in continuing our exceptional service to you and as always, we appreciate your business and support.

With regards,

Nati Benezri  
IMEX Vision
