

June 10th, 2022

To Our Valued Customers,

We have continued to experience escalation in our raw material prices. Since our last increase the PET Material Index has risen over 20%. As a result, we must announce a price increase for all orders placed on and after July 15, 2022 respecting our ten (10) day order to ship lead time. This increase will affect any and all shipments which take place on and after August 1, 2022. Inline Plastics reserves the right to allocate and/or decline orders exceeding historical purchases.

- All PET Products 12%

****All contracted business will increase per the terms of the agreement.**

We know that everyone is experiencing cost increases in running their business. Our price increases have been based on only raw material escalations and we have continued to absorb the Labor, Freight, and Overhead increases on our business. These are especially difficult times. We appreciate your continued support of our products and we are committed to working through this together.

Please do not hesitate to reach out to me if you have any questions.

Best Regards,

John Baragar

Vice President- Sales and Marketing
