

November 16th, 2020

To Our Valued Customers,

We continue to experience escalation in our raw material and manufacturing costs, as well an increase in transportation costs, due in part to the effects of the pandemic, coupled with some of the recent hurricane events on the gulf coast. Despite our best efforts to control these elements, we are unfortunately in a position where it is necessary for us to pass on these costs.

Inline Plastics is announcing a price increase for all general shipments which take place starting on and after January 1st, 2021. Please note the increase is based on the date the order ships, not the date the order was placed or the requested delivery date.

- All PET Products 8%**

All orders shipped prior to this date must be limited to normal stocking requirements. In addition, all contracted business will increase per the terms of the agreement.

We understand the impact that this is having on the market and are committed to providing the high service levels that you have come to expect from Inline Plastics and appreciate your continued support of our products during this time.

Please do not hesitate to reach out to me if you have any questions.

Best Regards,

Thomas M. Schleicher

Vice President- Sales and Marketing
