

August 12th, 2021

To Our Valued Customers,

We have continued to experience significant escalation in our raw material, labor, and transportation costs since our last price increase. Despite our best efforts to control these costs we are unfortunately in a position where it is necessary for us to pass on a price increase.

Therefore, we are announcing a price increase for all orders placed on and after September 24th, 2021 respecting our standard five (5) day order to ship lead time. This increase will affect any and all shipments which take place on and after October 1st, 2021. Inline Plastics reserves the right to allocate and/or decline orders exceeding historical purchases.

- All PET Products 12%
- All PP Products 6%

In addition, all contracted business will increase per the terms of the agreement.

These are especially challenging times and we are committed to providing the high service and quality levels that you have come to expect from Inline Plastics and we appreciate your continued support of our products during this time.

Please do not hesitate to reach out to me if you have any questions.

Best Regards,

John Baragar

Vice President- Sales and Marketing
