**March 15, 2021**

**Dear Valued Customer:**

**Multiple corrugated manufacturers have now notified us that their paper suppliers have increased their costs for linerboard and medium \$70.00 per ton March 1, 2021.**

**The latest increase they say is driven by continued strong demand, tighter supply of liners and medium, as well as higher operating costs due to the Pandemic.**

**Due to these increased costs, we must notify our customers that prices will increase 12% on all corrugated packaging on April 1, 2021.**

**Thank you for your business and continued understanding and support.**

**Sincerely,**

**Barry K. Redmann**

**General manager**
