

December 1, 2021

**Important Pricing Information**  
**Effective with Orders Received on or after February 1, 2022**

Dear KIK Professional Partner,

This letter is to notify you that effective with orders placed on and after **February 1, 2022**, KIK will be increasing prices on Liquid Bleach, Liquid Dish and Ammonia products we supply to the Professional channel. Throughout 2021, we have continued to incur significant and unprecedented inflation in all key inputs including Chlorine, Caustic, and HDPE Resin used in the production of bottles, caps, and closures. These factors are in addition to increased manufacturing and operating cost.

Despite our ongoing efforts to reduce these inflationary impacts, we have not been able to minimize or offset these cost increases. The resulting increases will be factored by product type and package.

- Liquid Bleach – 14-16%
- Ammonia – 10%
- Liquid Dish – 6%

We value your business and are committed to delivering the highest quality products, service and value to you and your customers. This pricing alignment will help us continue to deliver on these commitments.

Sincerely,

A handwritten signature in black ink, appearing to read "S. P. Jackson, Jr.", written in a cursive style.
