October 1, 2020

Dear Valued Customer:

Thank you so much for your continued business and support!

To protect the high standard of food safety and quality that you have come to expect from Lee Kum Kee, price increase on select items is necessary to offset rising cost of doing business during these uncertain times. This increase will be **effective January 1, 2021**. Items affected can be found in the attachment. In specific:

- For shipments from our factories in China directly to you, we will hold our current pricing on orders received by **Monday, November 2, 2020** and delivery completed by **Thursday, December 31, 2020**.
- For shipments from our warehouses here in the U.S., we will honor the current prices on orders received by **Tuesday, December 15, 2020** and delivery completed by **Thursday, December 31, 2020**.
- Please note that current pricing will not be honored for products that cannot be delivered due to payment issue.

We greatly appreciate your support and patience, and we look forward to continuing serving you as we grow our business together.

Wishing you wellness,

Simon Wu
President
