

ANNOUNCEMENT

September 30, 2021

Dear Valued Partners,

In these most unique times that we are facing, we appreciate the confidence that you have placed with Omcan in 2021. Unfortunately, it seems we aren't done just yet.

Due to the inflation of ocean container chargers, shipping freight rates, power shortage at many Chinese factories, raw material and foreign exchange rates, we will be implementing a price increase on the affected products.

New pricing will take effect on November 1st, 2021. Due to the new costs, we cannot release some back orders at the original prices. Any previous quotes may not be honored and subject to change. Please reach out to your sales representative to receive the updated price list, discuss previous quotes and backorders.

Since 1951 Omcan has strived to provide the foodservice industry with a quality product line that is diverse and at a great value. Once again, we appreciate the confidence you have placed with Omcan and we will continue to strive to provide for you the best quality and value in the market.

Please contact your Sales Representative if you have any questions or concerns.
