

November 15, 2021

Dear Valued Customer:

Effective Monday January 3rd, 2022, Paterson Paper will adjust prices on all items up to 9%. Selected product lines, in particular food packaging and baking papers, may experience increases greater than 9%.

The cycle of increased raw material costs and rising labor costs continues to impact production.

Additionally, in response to escalating transportation costs, Paterson is requiring a 200-case minimum for prepaid freight (previously 2,000#) on stock orders.

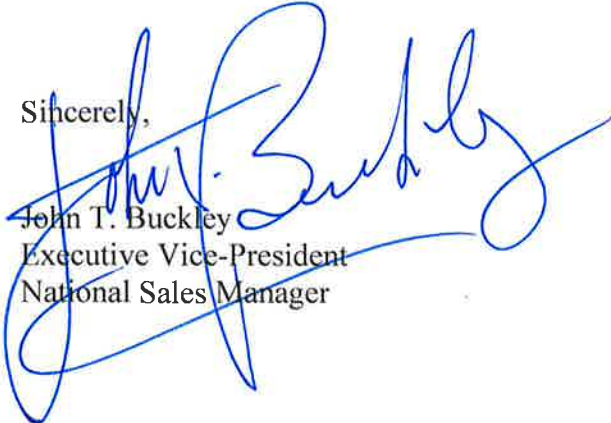

There is no change to prepaid freight requirements for custom orders.

This change in prepaid freight requirement is effective Monday January 3rd, 2022.

All orders placed by Thursday December 30, 2021 and requesting immediate shipment will be entered at current prices.

We appreciate your continued support of Paterson Paper. Please contact your local Paterson Paper sales contact with any questions.

Sincerely,

John T. Buckley
Executive Vice-President
National Sales Manager
