

March 4th, 2025

Dear Valued Customer,

Due to the recent **Paper Mill increases** and the possibility of **Tariffs** on numerous products we purchase from Canada and Mexico we are forced to announce a price increase to go into effect with orders placed on or after April 4th, 2025.

Virgin and Recycled Kraft 6% (Subject to PPW Index March 2025)

Bleach Kraft, Pan Liners, All Freezer Paper, Newsprint 20% to 25% TBD

The price Increase will be determined by the actual market movement and the availability of Mexican and Canadian Paper and if the Tariffs continue for more than 30 days. We will limit the purchase of some items like Freezer Paper and Bleach Kraft in order to maintain current pricing levels in the event that Tariffs are removed in the next 30 days. The Tariff cost will be the actual cost we incur on each item and will pass along a specific price Page with Tarriff shown on the Quote for acceptance by our customers. We will provide updated price pages for stocking items as they become available. We understand these increases are frustrating, but we need to move prices if we are going to continue with the excellent service we have provided over the last 39 years. Please feel free to call me with any Questions.

Sincerely,

Tal Cloud

President

March 3, 2025

SUBJECT: DOMTAR PRICING INFORMATION

To our United States Customers:

Recently, the U.S. government announced a 25% tariff on goods imported to the United States from Canada. Effective with shipments March 4, 2025, Domtar will implement a 25% price increase to our customers in the United States and United States territories on the following products:

- Bistro ® Food Service papers
- Industrial papers

As this is a very dynamic situation, we will continue to closely monitor the situation and modify our approach as developments occur. We appreciate your understanding and support as we navigate this unprecedented situation.

If you have any questions, please contact your Account Manager.

Sincerely,

A handwritten signature in black ink, appearing to read "Rob Melton".
