As a market leader in Foodservice Tomato Products, Red Gold is committed to producing the freshest and best tasting tomatoes in the marketplace.

While some commodity prices have softened, giving some relief, the impacts of tariffs and increases in other raw materials and packaging components are overshadowing these declines.

- Tariffs on Steel and Aluminum impacting Cans and Portion Control Film
- Packaging including corrugate, resin, and plastic
- Fuel
- Production Costs including labor, insurance, and utilities

Effective August 2, 2026, Red Gold Foodservice will adjust pricing on the following products:

- Fresh Packed #10 Can Peeled Tomato Products will increase ~1%.
- #10 Can Ketchup and Prepared Sauce will increase 0.1-1.9%
- Portion Control Condiments will increase 1-3%
- 46oz Juice will increase 0.9-1.7%

Red Gold has taken all measures possible to keep the increases you experience as low as possible. We will continue to work with our suppliers to mitigate the impact where possible.

Please refer to the attached price list for complete details.
