RE: Price Increase 7% on all items

Dear Customers,

Increase market demand and shortages has caused raw materials to increase dramatically this year. We are forced to increase 7% on all our items on April 5th, 2021.

Shipments of materials are projected to continued being delayed until end of the year as well as shortages. We will do our best to ensure orders are completed and filled timely. Please give us ample time to complete orders.

We appreciated your business and thank you for understanding the situation.

Best regards,

Moon Yen
