

October 8th, 2021

To our Valued Customers,

Shortages of critical shipping space have prompted ocean freight suppliers to implement increases for the coming months. In addition, labor, over the road freight, warehousing and other packaging costs continue to escalate which compound the challenges facing our supply chain.

Therefore, TTM will be announcing a 10% price increase on all shipments and invoicing dated on or after November 8th, 2021. This will include all items we ship into Canada, Mexico and the United States.

Please be assured that we are doing everything possible to source materials and transportation for continued supply across our manufacturing platform. These increases are necessary to insure that supply.

Your new pricing is attached as well.

If you have any questions regarding this letter, please feel free to call me directly on my cell phone at 310-947-5978. Thank you for your continued support.

Sincerely,

Paul W. Smith
President
