Re: W Packaging Domestic 11% Price Increase September 2021

Dear Valued Customers,

Upon further assessment and continued price increase notices, we have had to revise the domestic increase percentage from 10% to 11%, still effective on 9/27/2021.

Due to nationwide domestic pulp & paper price increases, continued increase of shipping and freight costs, as well as other volatile industry factors, effective September 27th, 2021 W Packaging will be implementing a 11% price increase on all domestic items, including domestic floorstock and domestic custom items. We have been trying to hold off for as long as possible, but we now must pass on this increase. We apologize for any inconvenience this may cause.

The increase will take effect across the board, for all domestic items regardless of location, or ordering type. All orders received picking up or shipping on and after the effective date of 9/27/2021 will be subjected to the 11% increase.

Please reach out to Bonnie Surber at bsurber@wpackaging.net if you have any questions or concerns.

We understand that these unparalleled times for all industries are causing high volume and supply chain issues, and we continue to appreciate your partnership and look forward to continuing to serve you moving forward as we all work through these times together.

Sincerely,

Larry Stewart
President
W Packaging, LLC.
