Re: WPD Price Increase Notification

Dear Customer:

There has been a large global price rise on wood pulp and shortages in the silicone supply chain that have put upward pressure on prices and extending lead times for our paper and parchment products. At the same time, shipping costs have increased sharply. We have been absorbing price increases from the paper mills and the shippers over the past two months in order to keep our customers insulated, but recent rises in replacement costs necessitate a price increase on our paper products of 7.9%.

The price increase will be applied to orders shipped after March 15. The old prices are not applicable to preorders before March 15 for later delivery.

Due to daily fluctuations in commodity greaseproof quilon panliners full-sheet and half-sheet prices, those will be quoted at the time of ordering.

We appreciate your patronage and we are maximizing our efforts to maintain supply lines and delivery schedules for our customers in the face of recent disruptions in the global economy.

Sincerely,

George Walsh

President
